## EXPERIENCE **Box8 (Poncho Hospitality Pvt. Ltd.)**

Front End Developer SDE-I · September 2019 - Present

A full-stack cloud kitchen startup serving 4 brands(Box8, MojoPizza, Itminaan Biryani, Mealful Wraps) under it's umbrella

- Lead the frontend payment team integrating 15+ payment methods via direct integrations.
- Implemented UI components for the payments section, brand landing page and customisation screens.
- Implemented Responsive Web Design on all five websites for a seamless mobile(web & in-app) and desktop view — properties accounting for >70% of all orders.
- Integrated with Storybook for creating components library to be used across Box8 family of brands

Stack: Angular, Typescript, HTML/Sass, Cypress, Storybook

## **IBM**

Associate Systems Engineer · March 2018 - August 2019

- Responsible for report generation from different fleet applications during account migration.
- Monitoring the applications in case of job failures while oncall support.
- Worked on an Angular website for our client to increase traceability of fleet and customer transactions.
- Was awarded with Eminence & Excellence Best Graduate Hire Award 2018.

## ON THE SIDE **Art Store**

Small time business owner running an art store, with my mom, selling paintings and handmade gift items.

**Artist** · [behance.net/sakshire](https://behance.net/sakshire)

Commission based digital artist; previously designed cartoons for a children's story book.

## EDUCATION **Bachelor of Engineering, IT Engineering** D. Y. Patil College of Engineering

2017
